

## A Rooted Sorrow

The past was all one long, gray blank Libby didnt hesitate when Keir Salinger wrote to her, begging her to forget their broken engagement and join him in Malta. But she wasnt prepared for the situation awaiting her. Keir had completely lost his memory and recalled nothing of their life together. How could he remain unaware of everything that had happened? The books hed written, the women hed known? And Pia, the Italian countess, in particular. Could he really have forgotten her?
