

Classic Motorsport Routes: 30 Legendary Routes You Can Drive Today

These are the routes the great drivers have taken on their race to glory. Classic Motorsport Routes revisits the most spectacular circuits, roads, and tracks that have helped shape more than a century of racing--from the road races of the Mille Miglia and the Targa Florio to the grueling hillclimbs of Grossglockner and Americas own legendary Pikes Peak, to the rallies of Monte Carlo and Spain, to the Grand Prix circuits from Monaco to Germany and the record-breaking courses of the Bonneville Salt Flats and the Frankfurt-Darmstadt Autobahn. Here are maps charting thirty routes across four continents, inviting readers to follow in the paths of the worlds automotive greats--or simply to sit back and enjoy the spectacular scenery as it unfolds on these pages. From the majestic Rocky Mountains of North America to the haunting pine forests of Northern Europe to the sun-baked villages of Sicily, this book by premier motoring writer Richard Meaden gives readers a thrilling close-up look at the routes that so many great drivers have followed--and continue to follow--into the annals of racing history.
