

Arundel Hymns (Classic Reprint)

Excerpt from Arundel Hymns To perpetuate this ancient Catholic devotional exercise, the Editors of Arundel Hymns have gathered together the most representative anthology they could collect of popularly-used Latin hymns, together with a large selection of English hymns by Catholic writers, which are duly set out here in such order as to illustrate the great truths of the Catholic Faith. Care has been taken in the selection Of both words and music, and an attempt made to raise the standard above much that has been published before, so as to meet to some extent the general elevation of literary and musical education. As this Hymn Book is intended for the use of Catholics, the Editors have thought it well to limit their selection of words to the works of Catholic writers. In a few cases they have adopted excellent translations made from Catholic originals by other hands. Some of the translations are as far as possible literal; others are paraphrases or imitations. The hymns and praises are not all adapted for music, some being included for devotional reading; nor are they intended exclusively for use in church, but also for the School and the Home.
