

Sophies Dream

Sophies Dream is to find an exciting life away from her strict education in a workhouse. She applies, with references, through an agency for a position as Governess in New South Wales. Along with other young women, she is chaperoned to their new life, beyond the social barriers in England. Abandoned on the quayside of Sydney, Sophie discovers the agency is a sham. Her instincts lead her to Mr Matthias Wells and a very different world opens up to her.
