

The Difference Is In The Dispensations

The Difference is in the Dispensations reveals the key to understanding the differences in the Bible. When one begins to read the Scriptures he is soon confronted with various laws, judgments, ordinances, commandments, doctrines, kingdoms, covenants, testaments, dispensations, gospels, priesthoods, feasts, tribes, churches, etc., and begins to see some of the Bibles complexity. He is further introduced to events known as the Exodus, Israels Captivity, Daniels Seventieth Week, the Rapture, the Judgment Seat of Christ, the Tribulation, the Millennium, the White Throne Judgment, the New Heaven and New Earth, etc., that add even more to its broad variety of topics. Once a reader gets to this point questions usually arise: Where do all these subjects belong? Do they all apply to everyone in every age? Does every precept mentioned in the Bible apply doctrinally to a Christian? What about the doctrines that appear to contradict each other? Is salvation exactly the same in every age? How is one to account for the differences? With this book we will show that the major differences in the Bible can be reconciled by rightly dividing it into dispensations and keeping the different doctrines found in the dispensations in their proper place.
