

## Heart Dancing: A Story Alchemy Adventure

What if Your Heart Stops Dancing? Brian, his wife Christine and their 14 year old daughter, Savanna, are a typical American family. Their lives begins to unravel when a dark secret from their past threatens to destroy them. Divorce seems imminent unless they discover a miracle. Savanna refuses to stand by and watch her family self-destruct. A mysterious young woman and her dog show Savanna how to look past the physical and see the spiritual side of her situation. A leap of faith and willingness to change her perspective gives Savanna a new view of her life, her values and her purpose. But can the adults give up their stories about the past that are tearing them apart? Brimming with inspiration, transformation and empowering messages, Heart Dancing is life changing. It also introduces the 4 step process called Story Alchemy, which is used in the novel to transform the stories that threaten the Hartts peace and happiness. The Story Alchemy Process can give you the same benefits. You will notice that: you are calmer and more grounded in the present moment; you no longer get upset or angry about past events or people; and your heart starts dancing with joy, love and acceptance. As you cheer on the individual choices made by Brian, Christine and Savanna Hartt, you will also reflect on your own stories that keep you playing small.
