

Jazz it Up

Jazz It Up is a childrens Christian fiction book about a nine year old boy, Jazz, who is learning a lesson in having faith in God as he is uprooted from his place of birth and his friends due to his mothers promotion on her job. He has lived in Louisiana all of his life and is accustomed to the sweet sound of jazz music at every turn. If thats not enough, his family is moving at the very beginning of the summer so he is trying to prepare himself for the worst summer that he could imagine, a summer without music or friends. Fortunately for Jazz, there is no problem too big or too small for God to handle.
