

Letters from Lighthouse Cottage

The sun is shining in the quiet little seaside town of Sandybridge. Sandybridge is the perfect English seaside town: home to gift shops, tea rooms and a fabulous fish and chip shop. And its home to Grace - although right now, she's not too happy about it. Grace grew up in Sandybridge, helping her parents sort junk from vintage treasures, but she always longed to escape to a bigger world. And she made it, travelling the world for her job, falling in love and starting a family. So why is she back in the tiny seaside town she'd long left behind, hanging out with Charlie, the boy who became her best friend when they were teenagers? It turns out that travelling the world may not have been exactly what Grace needed to do. Perhaps everything she wanted has always been at home - after all, they do say that's where the heart is...
