

Mark of Eternity

Imagine having dreams so real, they haunt you even when you're awake. What if they weren't dreams, but memories? Cadence has had incredibly realistic dreams of living in Ancient Egypt her entire life. They affect her deeply and are only getting stronger. Aidan is a rock star who's always believed in the paranormal but that doesn't prepare him for what happens when he meets Cadence. With Aidan's help, Cadence finally gives in to the fact they are not merely dreams, but memories of a past life. They discover an ancient map in Cadence's possession and follow it first to London, then to Egypt unaware of the danger close behind. The map will lead them to the final resting place of one of Egypt's most successful, and obscure, Pharaohs. And his treasure. Along the way, Cadence faces some tough challenges, including the fact she is falling in love with a man who reminds her of someone from her old life. Will she embrace her past or move on to her future?.
