

The Law And The Word: On the Promise of the Bible: Eternal Life, and of the Word made Real.

Towards most lucid and accessible attempt at explaining the roots of his convictions. --Napra Review The Law is the laws that govern thought and the forces of nature, the phenomena that we perceive, things that are not flexible. The Word is the divine power that creates. In 1917s The Law and the Word, philosopher Thomas Troward reconciles these two concepts in the shadow of the Biblical promise of eternal life for the truly faithful. With a logical, often scientific, always benevolent style, Troward lays out a method for the practical application of spiritual metaphysics. Published a year after the authors death, this work represents the culmination of all his esoteric studies and succeeds in bringing together the spirit and the mind, eventually becoming one of the earliest and best-known foundation stones of modern New Age thought.
